TRANSPORT FACILITY

## Why Filix School of Education ?

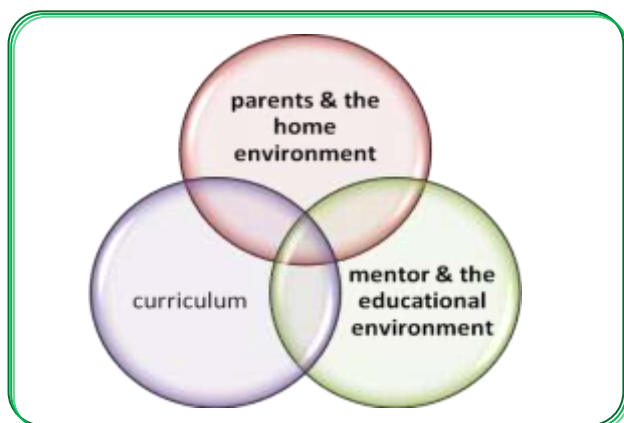

Filix School of Education (FSE) is an initiative by NANRITAM to make quality education at par with global standards available in the backdrop of Purulia.

Each child has a unique way of exploring the world around, a distinct process of acquiring knowledge and a unique individual style of interacting with people around. This makes every single child special in his/her own way.

Our aim is to appreciate the uniqueness of each child and provide them with adequate support and space to bloom. Understanding every child and accordingly determining the child's strength and weakness will be given the first priority. Every child's innate and latent capabilities along with the qualities that need to be developed and enhanced further will be identified and nurtured. The curriculum is so designed to help children identify and reach their maximum potentiality.

We believe that the development of a child is highly influenced by 3 factors .Development would be incomplete in the absence of any one factor .Hence these three factors need to be synergistically bonded to bring about complete and proper development of child .The teaching methodology at Filix School of Education is so designed to ensure that this synergy is best reached.

### Mission :

The goal of the school is to nurture the unfolding of the child's potential by providing love, security, encouragement and appreciation of the child's efforts. The school aims to help children learn how to learn and make learning a joyful experience.

### Strategy:

The curriculum structure for the primary sections is inspired by the global teaching methodology which aims to:

1. Make learning fun through use of various exercises, worksheets, dance, drama, music and recitation.
2. Use innovative new-age teaching technology like audio-visual aids.
3. Prepare children to be disciplined and self-dependent from a very tender age. Special focus will be laid on basic hygiene training.
4. Provide individual attention to all children. The stress will be to allow children to learn and progress at their own pace.
5. Lay less importance on homework and more importance on class room activity and participation.
6. Ensure regular monitoring and provide detailed end of month report on progress of child to parents.
7. Provide opportunity to interact with international volunteers from time-to-time.

## Vision :

To upgrade the school to Secondary/Higher Secondary level in phases, by adding classes each year, with Swami Vivekananda's vision of "Man-Making education" -that is to create self-reliant and responsible future citizens through proper grooming and quality education imparted through a band of dedicated teachers .The target is to make kids liberal in mind but with feet firmly grounded in Indian traditions.

## Program Information:

Admissions are open for primary sections from according to age group.

<b>Nursery</b> Age group : 2.5 - 3.5 years	<b>KG-I</b> Age group : 3.5 + years
<b>KG-II</b> Age group : 4.5 years +	<b>Standard I</b> Age group : 5.5 years +

The focus in the primary section is on activity based learning. Involvement in activities is not just merely a better way of learning, but also an effective way to enhance a child's interpersonal skills. Use of objects and articles, fun activities, technology such as computers, audio clippings, video footages, etc form an integral part of the *school* curriculum.

**AIM-** To upgrade the school to Secondary/Higher Secondary level in phases with Swami Vivekananda's vision of Man-making education.
